In order to assist referees in their US Youth Soccer referee careers, assist events in securing better quality officials and create a coaching system for referees

The re-imagined US Youth Soccer Leagues Program commenced in the Fall of 2018 and features a network of Conferences (formerly known as Regional Leagues) that are geographically focused, under one leadership and management structure, and linked into the highly successful National League and National Championship Series.

The Leagues Program structure for features two tiers of competition:

- The National Tier called the US Youth Soccer National League that will feature a total of 176 teams in the 13U through 19U age groups in each gender.
- The Multi-State Tier comprised of leagues each individually called a US Youth Soccer National League (Geographic Area) Conference (in the previous system these were known as the Regional Leagues)
